The types of Planesthere are some different types of planes designed for different distances and price range from \$ 1,000-85,000. It also offers access to more domestic destinations than other commercial airline services and will fly to the larger or general airports. This is also an ideal way to get from one destination to another as soon as possible and avoid long layovers or more connections that occupy too long. But one of the best advantages to renting your private jet is the lack of stress you have to deal with enough to choose from the United States alone constitute 49.7% of the world market for private jets à €
